Kristie,

Spoke with Eric Delgado and he would like to report only the parameters listed on the work plan.

Thanks.

Subject: Analytical results for samples collected 4/21/13 - partial

All,

I have received partial results for the 10 samples that were shipped to Test America this past Sunday (this is the first group of samples that were shipped via SW Cargo). I do not have the OP Pesticides (Method 8141) yet.

Before the final reports are transmitted, I want to confirm the list of analytes that are required in the report. We currently have the full list of parameters reported for each method. Eric mentioned earlier this week about only reporting the 5 parameters that were specifically listed in the original draft work plan. Please advise on what is preferred.

Thanks,
Kristie
